OBJECTIVE

Motivated and detail-oriented Computer Science student seeking an internship opportunity to apply programming, problem-solving, and technical skills in a real-world environment while learning from industry professionals.

EDUCATION

Bachelor of Engineering in Computer Science

09/2023 – Present

Gnanamani College of Technology

CGPA-8.5

Grade 12

06/2022 – 03/2023

Model Higher Secondary school

Percentage-73%

PROFESSIONAL EXPERIENCE

Full Stack Web Development

07/2026 – 08/2026

AEX Xenora Technologies

- Acomprehensive 'Full Stack Web Development' course covering both frontend and backend technologies required to build modern, responsive, and scalable web applications.
- Gained hands-on experience in developing user interfaces using 'HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and React.js', while building server-side applications with 'Node.js' and 'Express.js'.
- Learned authentication and authorization using 'JWT', version control with 'Git and GitHub', API testing with 'Postman', and application deployment using platforms such as 'Vercel, Netlify, and Render'.
- Successfully developed real-world projects including responsive websites and full-stack applications, demonstrating strong problem-solving, debugging, and software development skills.

Data Analytics

07/2025 – 07/2025

Crescent Infotech

- Analyzed and transformed datasets using Python, Pandas, and NumPy to identify trends, patterns, and meaningful business insights.
- Performed data cleaning and preprocessing, including handling missing values, removing duplicates, and preparing datasets for accurate analysis.
- Created interactive data visualizations and dashboards using Power BI, Excel, and Matplotlib to present key performance indicators and analytical findings.
- Applied statistical analysis and exploratory data analysis (EDA) to identify correlations, trends, and actionable insights for data-driven decision-making.

SKILLS

Technical Skills:

Python, Java, C++, HTML, CSS, JavaScript, React, Node.js, MySQL, MongoDB

Soft Skills

Problem Solving, Leadership, Team-worker, Multitasking, Punctuality, Adaptability

Tools/Platforms

Git, GitHub, VS Code

INTERESTS

Full Stack Development — Web Development | Mobile Application Development

Internet of Things — Hardware Assembling | Working with Arduino

PROJECTS

AgriNexus

- Developed a full-stack agricultural decision-support platform for centralized crop, weather, disease, fertilizer, and market information.
- Implemented crop and fertilizer recommendation modules based on farm, soil, crop, season, and water-related data.
- Integrated AI/ML disease detection using Python, TensorFlow, and OpenCV to identify crop diseases from uploaded images and provide treatment guidance.
- Built real-time agricultural services including weather, market prices, expense tracking, AI chatbot, REST APIs, and Google Maps integration.

Portfolio Website

- Developed a responsive portfolio website using React.js, HTML5, CSS3, and JavaScript to showcase projects, skills, education, and profile.
- Designed a modern, user-friendly interface with responsive layouts, smooth navigation, reusable components, and mobile support.
- Implemented interactive sections including About, Skills, Projects, Resume, and Contact with dynamic content.

Quiz Application

- Developed a responsive Quiz Application using React.js with multiple-choice questions, categories, scoring, and answer validation.
- Implemented dynamic quiz features including timers, progress tracking, question rendering, and results dashboard.
- Used reusable React components and state management for efficient quiz flow, scoring, and result calculation.
- Designed a modern responsive UI with CSS, supporting desktop, tablet, and mobile devices.

Arduino Obstacle Avoiding Robot

- Designed a self-navigating robotic module using ultrasonic sensors for environmental mapping and obstacle detection.
- Programmed an Arduino Uno to measure distances and detect obstacles within a 20 cm range.
- Implemented motor control logic for reverse-and-turn movements, enabling continuous navigation along safe paths.

ACHIEVEMENTS

- Admin for the Solved 200+ coding problems on LeetCode and HackerRank.
- Participated in college hackathons and coding contests.

CERTIFICATES

NPTEL Certification — Internet of Things (IoT)

MSO Certification — Diploma in MS Office (DMO)

Intenship Certificate — Xenoro Technology
